

I am a self-taught Python developer obsessed with developing things. I started with Django and Django REST framework few months back and I have been in love with them ever since. I started with tutorials on their website creating polls app for Django and polls app API for Django REST framework. I like to explore and learn new technologies apart from professional work. As LEARNING NEVER STOPS.

## Work History

2019-06 -	<b>Software Engineer - Support</b>
Current	QA InfoTech, Noida, Uttar Pradesh. <ul style="list-style-type: none"><li>• Wrote automated Selenium WebDriver tests for Chrome and Firefox in Java for a druple application.</li><li>• Organized test suites for both unit testing and integration testing.</li><li>• Tracked, identified and reported bugs to the manual team using automation scripts.</li></ul>

## Education

2015-2019	<b>B.TECH(COMPUTER SCIENCE &amp; ENGINEERING)</b> INDERPRASTHA ENGINEERING COLLEGE Graduated with 72.9%
2014-2015	ISC(XII)   SPRING DALE COLLEGE, LUCKNOW Percentage: 90.0%
2012-2013	ICSE(X)   SPRING DALE COLLEGE, LUCKNOW Percentage: 86.8%

## Projects \ Trainings

2020	<b>MOVIE RATER - (Django REST framework and React)</b> It allow user to fetch all the movies from the database and render on front-end using React. It allows a one rating per movie for every user.
2019	<b>PRODUCT HUNT-CLONE - (Django)</b> It allows user to upload their products only when they are logged in and facilitates an upvote system.
2018-2019	<b>SELF DRIVING RC CAR (FINAL YEAR) - (Python)</b> The project explains the development and functioning of the self-driving RC car which uses Raspberry Pi. The car combines several algorithms for stop sign detection, traffic-light detection and obstacle avoidance to provide for the autonomous driving.
2018	<b>SUMMER TRAINING, THE RESEARCH DESIGNS AND STANDARDS ORGANISATION</b> Developed an Online Meal Ordering android application using PNR.
