

I am a self-taught Python developer obsessed with developing things. I started with Django and Django REST framework few months back and I have been in love with them ever since. I started with tutorials on their website creating polls app for Django and polls app API for Django REST framework. I like to explore and learn new technologies apart from professional work. As LEARNING NEVER STOPS.

Work History

2019-06 -	Software Engineer
Current	QA InfoTech, Noida, Uttar Pradesh. <ul style="list-style-type: none">• Wrote automated Selenium WebDriver tests for Chrome and Firefox in Java for a druple application.• Organized test suites for both unit testing and integration testing.• Tracked, identified and reported bugs to the manual team using automation scripts.

Education

2015-2019	B.TECH(COMPUTER SCIENCE & ENGINEERING) INDERPRASTHA ENGINEERING COLLEGE Graduated with 72.9%
2014-2015	ISC(XII) SPRING DALE COLLEGE, LUCKNOW Percentage: 90.0%
2012-2013	ICSE(X) SPRING DALE COLLEGE, LUCKNOW Percentage: 86.8%

Projects \ Trainings

2020	MOVIE RATER - (Django REST framework and React) It allow user to fetch all the movies from the database and render on front-end using React. It allows a one rating per movie for every user.
2019	PRODUCT HUNT-CLONE - (Django) It allows user to upload their products only when they are logged in and facilitates an upvote system.
2018-2019	SELF DRIVING RC CAR (FINAL YEAR) - (Python) The project explains the development and functioning of the self-driving RC car which uses Raspberry Pi. The car combines several algorithms for stop sign detection, traffic-light detection and obstacle avoidance to provide for the autonomous driving.
2018	SUMMER TRAINING, THE RESEARCH DESIGNS AND STANDARDS ORGANISATION Developed an Online Meal Ordering android application using PNR.
